ALUMNI SPEAK

"After attending the Artificial Intelligence with AWS program, I not only grasped the core concepts of AI but also underwent a remarkable transformation. I confidently built a transformative project using AWS tools, showcasing my newfound skills and a deeper understanding of technology. This program was truly a game-changer!"

- AARUSH PATEL -
New Tulip International School,
Ahmedabad

"The 'AI with AWS Internship' was a game-changer for me. The opportunity to dive into machine learning and AI through AWS was incredible. Developing a project that applied what I learned was empowering. This program opened my eyes to the limitless possibilities of technology"

- KATE ANN DE LOURDES FERNANDES -
The Millenium School, Dubai

"I thoroughly enjoyed the course. I was really anxious in the beginning and I don't know if I would be able to cope with the module, especially with so many people I had never met before. However, everyone created a very welcoming environment and I felt myself coming out of my shell slowly. All in all I'm incredibly grateful for being given This opportunity."

- SERA CHERIAN -
Bombay Scottish School, Mumbai

CORPORATE GURUKUL

15 years | **21** countries | **30+** cities
15 nationalities | **40+** schools | **70+** universities
